

Venue: Lifelong Learning Institute, Level 1, Event Hall 1-2
11 Eunos Road 8, Singapore 408601

A head-and-shoulders portrait of Dr. David A. Clark. He is a middle-aged man with short, light brown hair, smiling warmly at the camera. He is wearing a dark blue or black blazer over a light blue and white checkered button-down shirt. The background is a dark, textured grey.

Dr. Kam Tin Seong
Associate Professor of Information
Systems (Practice), School of
Computing and Information
Systems, SMU

AWS Smart Cities
Leader, ASEAN
Amazon Web Services
(AWS)

Day 1, Tuesday, 15 Oct 2024

Venue: Lifelong Learning Institute, Level 1, Event Hall 1-2
11 Eunos Road 8, Singapore 408601

Time: 11.15am to 11.30am

Combating Climate Change with Geospatial AI and Machine Learning

This engaging session introduces what geospatial machine learning and AI is to any technical or non-technical professionals in the GIS and surveyor world. We will explore case studies of how powerful software infrastructure and machine learning is being used today to create models that help us better understand our natural world, finance natural restoration projects and mitigate climate risks.

Mr Johann Wah
Co-Founder
Nika.eco

Time: 11.30am to 11.45am

Mapping a Better Tomorrow

This session highlights how organizations globally are leveraging GIS technology to address risks and challenges related to climate change and environmental issues. We will explore the impact of the Sustainable Development Goals (SDGs) on various organizations and demonstrate how GIS has been crucial in advancing these goals. Additionally, the session will feature examples of how GIS is being used to foster social good and drive positive change.

Ms Sharon Gin
Senior Manager, Solution
Engineering, ESRI Singapore

Day 1, Tuesday, 15 Oct 2024

Venue: Lifelong Learning Institute, Level 1, Event Hall 1-1
11 Eunos Road 8, Singapore 408601

Time: 11.00am to 6.00pm

Unlocking Insights with Aerial Mapping: Tools and Techniques

An increasing need for precise geographic information is driving the rapid expansion of aerial imagery and LiDAR data use across various industries. New applications are emerging through a combination of advancements in sensor technology and processing techniques (including AI) to derive information from the datasets. Aerial imagery, captured by drones, planes, or satellites, provides high-resolution visual data, offering detailed insights for applications including urban planning, environmental monitoring, and disaster response. LiDAR (Light Detection and Ranging) technology uses laser pulses to create precise 3D models of the built environment including buildings, terrain, vegetation and the ground underneath.

This workshop presented by SLA, Woolpert, ESRI, Leica and Bentley will describe the differences between imagery and LiDAR sensors, explain how aerial mapping data is collected and processed along with applications and insights that can be gained from the data.

Mr Ricky Thomson

Aerial Mapping
Production Manager
Woolpert

Ms Liezel Dizon

Business Development
Manager – APAC , Reality,
Imagery and Remote Sensing
Esri Inc, Singapore

Mr Brian Connolly

Senior Solution Engineer, Reality,
Imagery and Remote Sensing
Esri - Denver, Colorado, USA
ESRI

Ms Maylen Yee-
Cabalan

Manager, Solution
Engineering (SEA)
Bentley

Ms Maziana Muhamad

Mapping Account Manager Woolpert

Mr Neil Ashcroft

Regional Technical
Support Manager
Leica Geosystems

Ms. Leah Mary
Lilly Denoun

Research Associate
Centre for Nature-based Climate Solutions
National University of Singapore (NUS)

| Time | Program |
|--------|---|
| 1.30pm | Registration |
| 2.00pm | Welcome Remarks |
| 2.10pm | Introduction by Attendees |
| 2.30pm | Introduction to OGC and OGC Forums (Scott Simmons) |
| 2.50pm | Short presentations on the use of Standards in Singapore |
| 3.40pm | Tea and Networking |
| 4.00pm | Discussion on geospatial priorities for Singapore and final thoughts from attendees |
| 5.00pm | Adjourn |

Join this session to explore how geospatial technology is revolutionizing society by leveraging accurate spatial data to enhance decision-making in urban planning, disaster management, and infrastructure development. Discover how geospatial technology promotes sustainability and drives positive change across various industries and sectors!

Venue: Revenue House, Level 13
55 Newton Road, Singapore 307987

Lunch Break

Transforming Reality Capture Data Into Actionable Information

Mr Benjamin Lim
Regional Technical
Sales Manager
Trimble

GeoAdventure – Navigating the World of Geospatial Intelligence & Technology

Mr Jonathan Goh
Geospatial Manager,
GeoSpatial Policy & Engagement
Singapore Land Authority (SLA)

Associate Professor of Information
Systems (Practice), School of
Computing and Information
Systems, SMU

Day 3, Thursday, 17 Oct 2024

Venue: Marina South Pier

For enquiry and registration, please email to geospace-sea@mpa.gov.sg

Time: 9.00am to 12.00pm

Field Trip @ Sea

Are you curious about how data is collected below the sea surface to ensure safe vessel navigation? Ever wondered how drones capture images out at sea?

Join us for an exciting field trip where we'll dive into the world of hydrographic surveys and drone operations! You'll get a unique experience and see firsthand how these technologies contribute to Singapore's maritime geospatial capabilities to ensure safety of navigation and marine operations.

Don't miss this opportunity to explore the challenges and innovations in collecting geospatial data at sea!

Time: 2.00pm to 5.00pm

Maritime Geospatial Workshop

At any point in time, there are over 1,000 vessels in Singapore's waters. From maritime trade, tourism and more, our busy waters host a wide range of uses.

Mapping and visualising these activities using geospatial technologies can help support marine and coastal planning, manage the impacts of climate change, and support the protection of the marine environment.

We invite you to join us for an exciting workshop session where we'll discover how marine geospatial data can help enhance the safety, efficiency, and sustainability of the maritime domain.

Don't miss this opportunity to explore how marine geospatial insights are revolutionising maritime operations and shaping the future of our oceans!

GEOSPATIAL FOR GOOD

Enriching Minds, Empowering Lives

Day 3, Thursday, 17 Oct 2024

Venue: Revenue House, Level 13
55 Newton Road, Singapore 307987

Time: 4.00pm to 6.00pm

ULI SG – SLA Forum: Unlock the Power of Geospatial for Sustainable Urban Development

The ULI SG – SLA Forum will explore the power of geography and geospatial in fostering an inclusive community and promoting sustainable urban development. Join us for an evening of knowledge-sharing & networking and be updated on the latest geospatial developments.

Inspiring Perspectives from Industry Leaders:

A Geospatial Perspective

Introduction by Mr Colin Low
Chief Executive
Singapore Land Authority (SLA)

Moderated by Mr Ng Siau Yong, the panel will also discuss transformative ways to mainstream geospatial for operational efficiencies and promote sustainability in the urban built environment through best practices with geo-enabled solutions.

Ms Ku Geok Boon
Chief Executive Officer,
SG Enable

Prof Chang Chew Hung
NIE Sustainability Officer, and
Professor, Humanities and Social
Studies Education, NIE, NTU

Mr Scott Dunn
Chief Strategy Officer
& Vice President
(Asia), AECOM

Mr Ng Siau Yong
Director, GeoSpatial and Data
& Chief Data Officer
Singapore Land Authority
(SLA)

Day 3, Thursday, 17 Oct 2024

Venue: Kallang → Marina

Limit at 20 pax

Registration is confirmed upon organiser's email confirmation.

Time: 5.00pm to 7.30pm

Empowering Active Mobility with MOVE&JOY app

Join us for a scenic evening bike ride from Kallang to Marina!

Learn how Singapore #1 active mobility lifestyle app utilize OneMap and location-based services to empower active and micro mobility users and local business. Meet the team behind this homegrown startup and experience a scenic ride from Kallang to Marina while utilizing the app. Win a prize at the end of ride in a special pop-quiz.

| Time | Program |
|--------|---|
| 5.00pm | Safety briefing at Stadium MRT, Exit A (Sign-up required, no walk-ins) |
| 5.30pm | Bike Collection |
| 6.30pm | End at Bayfront with Pop-quiz Group Photo at the Big Chair |
| 7.00pm | End of Activity |
